SMALL-POX has broken out at Washington, Indiana.

ELEVEN hundred cigar makers are out of employment at Chicago.

COUNTERFEIT silver dollars dated 1880 are in circulation at Mt. Sterling.

PARIS, after using the standard time, has repudiated it and gone back to the old.

EDWIN FARLEY succeeds Crumbaugh as Collector of the Second Kentucky revenue district.

A MOVEMENT for the abolition of the contract system of convict labor has been started in Colorado.

FRENCH pork packers are much displeased over the abrogation of the decree prohibiting the importation of American pork.

SOME Republicans propose that Gov. Robinson, of Massachusetts, should be given the nomination for Speaker as a reward for his services in beating Butler.

AN enumeration of the voters of Indiana, just completed shows an increase in six years of 41,684 whites 987 colored, an annual increase of 710. The total number of voters is 483,643 whites and 10,007 colored, making the grand total 493,650.

ARCHBISHOP CROKE thinks the Irish party in Parliament has made some progress, and if the people persevere in a just cause, avoid crime and refuse to be transported, the present generation may live to see the old land clothed in freedom under the Irish flag.

REPORTS from twenty counties in Indiana, Illinois and Kentucky indicate that there has been a largely increased acreage of wheat sown. Farmers are satisfied with the prices of produce and are paying their bills more promptly than in other years.

EX-SENATOR SPENCER will assert that he never saw Dorsey pay money to Brady, and never saw those two men together. He claims that the Star Route trials were brought about at his instigation and says he waited two weeks in Washington to testify, but Bliss refused to see him.

A DISPATCH from Washington says: Mrs. Mary A. Miller, of New Orleans has applied for a license as master of a steamboat. The Supervising Inspector of the district reports her competent, but debar her because of sex. The case is referred to the Solicitor of the Treasury.

JUDGE KINKEAD, of Fayette county, after a careful study of the State revenue system, is convinced that no great improvement can be effected while the taxable valuation of property is adjusted annually by the assessors. He suggests a commission for each county who shall determine the cash value of all lands once in five years, and the said value to be the basis for taxation. It is very certain that assessments in many cases ought to be increased and the rate of taxation reduced all around. Under the present system the bulk of the taxes are paid by men of moderate means. The man who owns a cottage worth \$1,000 pays all that he ought to pay in taxes, because its value is known to all, while for obvious reasons the citizen who is worth \$200,000 doesn't pay, in many cases, one-tenth of what he ought to pay. A fair valuation of property and low taxes is what is needed.

DAME FASHION'S GRAB-BAG.

Little Things that fill the Satchel and Multitudinous Feminine Minds.

"London smoke" is a fashionable color for cloth ulsters.

The style of a neat waist worn half a century ago is now copied and admired by ultra-fashionable young ladies. The waist is sharply pointed front and back, and over the front is laid a shirred piece from the throat to the extreme point, where it ends in a bow and ends of satin ribbon. The sleeves are puffed and shirred and are exceeding high on the shoulder.

A charming Parisian bonnet, received in New York straight from Madame Heitz Boyer, is made of golden fawn-colored velvet. The brim is veiled by a fall of ostrich tip shading from the palest to the deepest brown. Over one side of the crown droop two more of the feathers and underneath these are set a cluster of pink azaleas and frosted leaves of gold and bronze. A sparkling buckle holds the feathers in place. The bonnet is further brightened by a lining of pink velvet.

A recent notion is the "crazy" quilt—and crazy it is. A lady in Baltimore said the other day that the first day she tried to put her together it gave her such a headache she had to go to bed. They are made of scraps of silk, satin or velvet. These are based on a foundation of canvas—the more "crazy" the better. The edges are neatly turned in and button-holed or feather-stitched with different colored silks or worsteds. When finished they are really quite pretty. Enough silk twist to work a cushion can be had for forty cents by buying what is called waste silk. The same quantity in skeins would cost over a dollar.

KALEIDOSCOPICS.

Society dramatized affords an immense scope for tragedy and comedy combined. The world's audience is found in their elate, and exclaim how true to life.

Many women resemble the ivy. They marry, thinking man will be the grand oak to cling to through the storms of life, but very soon proving to be only a weed, which rather less bends and snaps at the first twining tendrils of the world be clinging ivy.

Women nowadays display quite a masculine taste for hunting, the only difference that the women aspire to higher game, they prefer husband hunting to fox hunting. Yet women who are such adepts in stratagem ought to be able to capture the wily fox with equal dexterity.

Shawls are a modern invention, yet in these days of advanced enlightenment it behooves one to keep their wits sharpened sufficiently to be able to penetrate the cunning scheme which are constantly palm-d off so cleverly on poor unsuspecting humanity. "All that glitters is not gold."

He was observing her most attentively, as she sat embroidering most industriously. "Well," said he, "that is the most nonsensical piece of work I have ever seen you engaged in. You must be in want of something to do—when you patch holes in these pieces of muslin, merely to sew up again."

Pedantic egotizers are a sure index of this cultured age, where ever you go you encounter some of these excessive readers—who possess very retentive memories, not alone satisfied to digest themselves that intellectual food, but the spirit of pride causes them to impart it to others whether of appreciative minds or no.

There would be less repining among fashionable young ladies from the prevalent complaint of ennui. The only remedy for a monotonous existence, is to arouse yourself to action, to have some aim in life to live for, to accept it in whatever form it might present itself—grasping it with the avidity you would grasp the life-preserver, thus preventing you from sinking into despair.

Fashion is a cruel despot, yet her victims quietly submit to her dictates with heroic bravery. Ladies' tight sleeves, which reign supreme, are the refinement of cruelty—suppressing the circulation of the blood to a painful degree—and the once fair hand becomes as ruddy as a raw beefsteak, causing the veins to swell and the pink nails to turn purple. This style is no beautifier to hands I assure you.

Why is the question so often propounded—in a little town where we wot of—that all of a sudden the young men are flitting westward. We can not opine, unless it be, there has been so many tony weddings of late, that in accepting the invitations which had to be accompanied by a handsome present, it has proven quite a strain on their bank account, as a last resort they are compelled to relinquish their fields and pastures green to retrieve their fallen fortunes.

The world is surely overstocked with humanity, when you hear the constant cry of suffering humanity in search of employment, continually rebuffed in their endeavor to procure employment, by the curt, laconic information "Why, man, the applications are greater than the demand." This deplorable state of affairs makes one come to the conclusion that suicide is necessary, to decrease the over-stocked population—that substance may be obtained by the lingering applicant.

Young ladies who will persist in being extremists in fashion, have to suffer the consequences. For instance: Miss Jones is congratulated on an exceedingly vain woman; she flatters herself that she resembles Bernhardt in form—her sleeves fit her arm as if in a vice, showing off to the best advantage the exquisite of an anatomy of the most beautiful. Where is woman's vanity? But she is patient under the trials of affliction. She is obliged to decline, in the presence of her sweetheart, her hostess' invitation to lay off her bonnet, because, she would be necessitated to divert herself of her bodice or she would have the freedom to raise her arms to remove her bonnet. Who would wear tight laced gowns? Such model of beauty and convenience!

Pearl and crystal brandebourgs and fourages fastens and decorate many evenings corsages of white or pale tinted satin or silk.

The constant feeling of being "played out" and "used up," can readily be removed by using Ayer's Sarsaparilla.

SCROFULA

and all scrofulous diseases, Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores. "Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me. Yours respectfully, Mrs. ANN O'BRIAN," 148 Sullivan St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. F. White of 75 South 44th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known writer on the Boston Herald, B. W. Ball, of Rochester, N.H., writes, June 7, 1882: "Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a complete cure. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

Reasons Why You Feel Badly.

4
Because your stomach is not doing its work properly.
Because your liver is out of order, and wants righting.
Because your blood is thin, and wants iron in it.
Because you are troubled with nervous aches and pains.
Because you are vexed with languor and debility.
All these Reasons Can be Set Aside by the Use of Brown's Iron Bitters, which will
Tone up your enfeebled stomach, and help to digest.
Refresh your wearied liver, and put it in splendid order.
Enrich your watery blood, and give it a rich red color.
Calm your worried nerves, and give them restful peace.
Strengthen your whole system and drive debility and languor out.
Considering that any man who has a dollar may buy of the nearest druggist a bottle of BROWN'S IRON BITTERS, there is no reason why people should continue to feel badly, just for the fun of it
